*A character-driven portrait of Alice in Chains —
from their formation to their evolution at the heart of the Seattle grunge movement,
and the emotional and physical cost of creating music that would define a generation.*

THE SHOW

An unflinching look at the formation and evolution of Alice in Chains, set against the birth of the Seattle grunge movement — where brotherhood, ambition, and addiction collide in the pursuit of something that would redefine music forever.

THE OPPORTUNITY

The audience that grew up with this music is now 35-55 — the primary demographic for prestige television. A second generation is discovering Alice in Chains with no nostalgia and no prior relationship. "Nutshell" trends on social media with regularity that would have been unimaginable in 2002.

The scripts exist. The world is built. Producer Scott Rosenfelt (Home Alone, Russkies) is attached. WGA registration complete. The team is assembling.

KEY CHARACTERS

LAYNE STALEY

The voice. Funny, disarming, and fully alive before the cost arrives.

JERRY CANTRELL

The witness. The survivor. Still here. Still making music.

DEMRI PARROTT

The season's moral center. Not a muse. Not a victim. A specific, present person.

SEAN KINNEY

The drummer. Sharp, physical. The one who never broke.

MIKE STARR

The bassist. Showed up. Felt the loss as deeply as anyone.

SAFEGUARD PROTOCOL

A 12-rule ethical framework governs every script. No glorification of addiction. No blame assignment. No exploitation of the manner of death. The dignity of every person depicted is non-negotiable.
