

**READY  
SET FLY**

# The Connected Aviation Platform with Marketplace & Pilot Tools Built In.

*Pre-Seed Investment Opportunity*

[readysetfly.us](https://readysetfly.us)

# Pilots Are Flying Blind Before They Ever Leave the Ground

## Fragmented Tools

Pilots bounce between 5-8 different apps for weather, NOTAMs, flight planning, and comms. Nothing talks to anything else.

## No Unified Marketplace

Aircraft rental & listing is scattered across FBOs, Craigslist, and word-of-mouth. No dedicated GA marketplace exists.

## Outdated Resources

Existing tools are clunky, desktop-first, and built for professionals — not the 800K+ active GA pilots in the US.

# One Platform. Every Tool. One

Ready Set Fly connects marketplace discovery, flight planning, aviation weather, training tools, logbook workflows, and FAA Flight Service capability in one general aviation platform.

MARKETPLACE

TOOL HUB

*Tools bring pilots in -> pilots stay for workflow depth -> marketplace and subscriptions fund better tools.*

## PLATFORM TOOLS

Flight Planner

Aircraft Marketplace

# A Massive, Underserved Market

**800K+**

**Active GA Pilots**

Per FAA — United States

**\$6.4B**

**GA Market Size**

Annual US market

**180K+**

**GA Aircraft**

Available/registered US fleet

**\$2.1B**

**Aircraft Rental TAM**

Addressable opportunity

## Why Now?

Post-COVID pilot surge — student pilot certifications up 28% since 2020

Mobile-first pilots expect integrated digital experiences — legacy tools haven't adapted

No dominant GA marketplace platform exists — the space is wide open

# Early Signals Are Strong

## 4,300+

**Early Visitor Signals**

Launch traffic + engagement

## 30K+

**Tracked Events**

Tool + marketplace activity

## V&V

Independent testing next

## Live

**Platform Status**

Web + mobile ecosystem

## August 2026 Investor Update

RSF has moved from early tool adoption into a broader connected GA workflow. The platform is live, pilot tools are deployed, and FAA Flight Service capability is built in the test environment as RSF prepares for independent V&V and production progression.

### Platform Status

- ✓ Web platform live (React / Express / PG)
- ✓ Mobile app + subscription system
- ✓ Flight Planner + live aviation data
- ✓ FAA Flight Service integration in validation
- ✓ Digital Logbook + Pro tiers
- ✓ Marketplace + CFI workflows

# Two Engines. One Platform.

## Aircraft Marketplace

### List & Rent Aircraft

Free to list; transaction model planned

### Verified pilot community

Profiles, logbook, and ratings context

### Rental workflow monetization

Commission on completed rentals

### Marketplace expansion

Owners, CFIs, schools, and services

## Pilot Tool Hub

### Flight Planner + E6B

Full pre-flight workflow in one place

### FAA Flight Service Integration

Built; test and validation stage

### AI Weather & NOTAM Intelligence

Plain-English decoding and live data

### Logbook + Training Workflows

Pro tools for pilots, CFIs, and students

# Multiple Revenue Streams, Built for Scale

## Marketplace Fees

ACTIVE

Free-to-list rental supply with RSF monetizing completed transactions, promoted listings, and marketplace activity.

## Banner Advertising

LIVE

Aviation-focused placements for insurance, avionics, training, and other GA-adjacent advertisers.

## Pro Subscription

LIVE

Core and Pro+ tiers for logbook analytics, saved planning workflows, alerts, and advanced pilot tools.

## Strategic Relationships

ROADMAP

Aviation data, service-provider, CFI, flight-school, FBO, and association relationship opportunities.

## CFI & School Tiers

LIVE

Training workflows and professional tools for CFIs, students, and school/operator use cases.

# Different From Single-Purpose Aviation Tools

|                       | Ready Set Fly | ForeFlight | CloudAhoy | Aircraft.com |
|-----------------------|---------------|------------|-----------|--------------|
| Flight Planning Tools | ✓             | ✓          | ✓         | ✗            |
| Aircraft Marketplace  | ✓             | ✗          | ✗         | ✓            |

| Single Integrated Hub | ✓             | ✗          | ✗         | ✗            |

RSF differentiates itself by combining marketplace discovery with an integrated pilot-tool and workflow ecosystem - not by trying to replace single-purpose EFB or listing platforms.

# Flywheel Growth Strategy

## 01 Tool-Led Acquisition

Free tools introduce pilots to RSF

High-intent aviation searches feed discovery

Post-tool-use sign-up nudge supports conversion

## 02 Community & CFI Channel

CFIs and pilots validate real workflow needs

Instructors bring students into tools & logbook

Schools and operators create expansion channels

## 03 Marketplace Network Effects

Rental listings attract pilot demand

Workflow depth drives repeat platform use

Flight Service adds retention to planning flow

Each phase reinforces the next - tools bring pilots in, workflow depth builds trust, marketplace activity expands revenue.

# Pre-Seed Round

# \$500K

OPEN PRE-SEED ROUND

## Use of Funds

- 25% FAA Flight Service V&V & production progression
- 30% Product, engineering, reliability & infrastructure
- 25% Pilot acquisition, subscriptions & marketplace growth
- 20% Operations, compliance, legal & runway

## 12-Month Milestones

Q3 2026

Independent V&V scope finalized; test matrix executed

Q1 2027

Pilot growth, subscription conversion & rental activity

Q4 2026

Findings remediated; production package submitted

Q2 2027

Strategic aviation relationships and infrastructure scale-up

# The Connected Aviation Platform with Marketplace & Pilot Tools Built In.

---

*Pilots deserve a platform that connects the work they already do.  
RSF is building that ecosystem - and this round moves it into its next stage.*
