

**READY
SET FLY**

The Aviation Marketplace with the Planning Tools Built In.

Pre-Seed Investment Opportunity

readyssetfly.us

Pilots Are Flying Blind Before They Ever Leave the Ground

Fragmented Tools

Pilots bounce between 5–8 different apps for weather, NOTAMs, flight planning, and comms. Nothing talks to anything else.

No Unified Marketplace

Aircraft rental & listing is scattered across FBOs, Craigslist, and word-of-mouth. No dedicated GA marketplace exists.

Outdated Resources

Existing tools are clunky, desktop-first, and built for professionals — not the 800K+ active GA pilots in the US.

One Platform. Every Tool. One

Ready Set Fly is the aviation marketplace with the planning tools built in — the only platform where pilots can rent or list aircraft AND complete their full pre-flight workflow in a single destination.

MARKETPLACE

TOOL HUB

Tools drive pilots to the platform → pilots discover the marketplace → marketplace revenue funds better tools.

PLATFORM TOOLS

Flight Planner

AI Weather Briefing

E6B Calculator

Addressable opportunity

Why Now?

Post-COVID pilot surge — student pilot certifications up 28% since 2020

Mobile-first pilots expect integrated digital experiences — legacy tools haven't adapted

No dominant GA marketplace platform exists — the space is wide open

GA4 Highlights · QTD Jan–Mar 2026

Facebook is the #1 acquisition channel (678 users), with 594 direct — showing strong word-of-mouth. The Tool Hub leads with 7,081 views at a 7.6% bounce rate, and the Marketplace page draws 4,793 views at 7.3% bounce. The E6B tool averages 7.2 events per user — a strong signal of deep engagement. Aircraft Rentals page: 0% bounce rate.

Platform Status

- ✓ Full-stack app live (React / Express / PG)
- ✓ 11+ integrated tools deployed
- ✓ Logbook + Pro subscription system
- ✓ CFI Dashboard & Directory
- ✓ AI Weather & NOTAM Translator
- ✓ Fuel Price Finder (mock → AirNav ready)

Two Engines. One Platform.

Aircraft Marketplace

List & Rent Traditional Aircraft

First 5 listings FREE with TAILWINDS code

Verified pilot community

Integrated with logbook + ratings

Promo pricing active

Revenue model: listing fees + premium tiers

AirNav fuel integration

Env-var swappable provider architecture

Pilot Tool Hub

Flight Planner + E6B Calculator

Full pre-flight workflow in one place

AI Weather & NOTAM Translator

Plain-English decoding, real-time updates

Radio Comms & GPS Simulators

Training tools for student pilots & CFIs

CFI Dashboard + Training Center

Pro tier for instructors, schools & students

Multiple Revenue Streams, Built for Scale

Marketplace Fees

ACTIVE (PROMO)

Listing fees, premium placement, and transaction fees on aircraft rentals and sales.

Banner Advertising

LIVE

Aviation-adjacent advertisers (insurance, avionics, training).
Impression-based, already rotating.

Pro Subscription

LIVE

Tiered subscription unlocking Digital Logbook, CFI tools, advanced flight planning & AI features.

Data & Partnerships

ROADMAP

Aggregate anonymized flight planning & fuel price data. AirNav, AOPA, and FBO partnerships.

CFI & School Tiers

LIVE

Professional dashboard for CFIs and flight schools. Per-seat or school-wide licensing model.

We Don't Have a Direct Competitor. That's the Point.

RSF is the only platform combining a marketplace with an integrated tool ecosystem — creating a flywheel no single-purpose competitor can replicate.

Flywheel Growth Strategy

01 Tool-Led Acquisition

Free tools drive organic search & word-of-mouth

SEO-optimized tool pages for high-intent pilot queries

Post-tool-use sign-up nudge (already converting 5x)

02 Community & CFI Channel

CFI dashboard drives instructor adoption

Instructors bring student pilots to the platform

Flight school partnerships for institutional licensing

03 Marketplace Network Effects

Aircraft listings attract renter pilots

Renters become listers, grow supply organically

TAILWINDS promo code seeding initial supply

Each phase reinforces the next — tools feed community, community builds the marketplace, marketplace revenue funds better tools.

Pre-Seed Round

\$150K

SEEKING · OPEN TO \$250K

Use of Funds

- 45% Product & Engineering — AirNav integration, GPS sim, mobile optimization
- 25% Growth & Marketing — Paid acquisition, aviation community outreach
- 20% Operations & Infrastructure — Hosting, APIs, security, legal
- 10% Founder Runway — 6-month focused development sprint

12-Month Milestones

Q2 2026

AirNav live, GPS simulator shipped, 500 registered users

Q4 2026

Pro subscription MRR > \$5K, Series A data room ready

Q3 2026

First paying marketplace listings, 1,000 users, CFI school deals

Q1 2027

Strategic partnership (AOPA / FBO network), 5,000 users

The Aviation Marketplace with the Planning Tools Built In.

*Pilots deserve a platform that works as hard as they do.
RSF is that platform — and we're just getting started.*
